

LIST OF TABLES

	TABLES	PAGE
I	Name and address of the schools	61
II	Variables selected and data collection procedure	64
III	Mean and standard deviation values of sports performance and IX th standard academic achievement	69
IV	Pearson product moment correlation between sports performance and IX th standard academic achievement	70
V	Mean and standard deviation values of sports performance and X th standard academic achievement	72
VI	Pearson product moment correlation between sports performance and X th standard academic achievement	72
VII	Mean and standard deviation values of sports performance and XI th standard academic achievement	74

VIII	Pearson product moment correlation between sports performance and XI th standard academic achievement	74
IX	Mean and standard deviation values of sports performance and economic status	76
X	Pearson product moment correlation between sports performance and economic status	76
XI	Mean and standard deviation values of economic status and IX th standard academic achievement	78
XII	Pearson product moment correlation between economic status and IX th standard academic achievement	78
XIII	Mean and standard deviation values of economic status and X th standard academic achievement	80

XIV	Pearson product moment correlation between economic status and X th standard academic achievement	80
XV	Mean and standard deviation values of economic status and XI th standard academic achievement	82
XVI	Pearson product moment correlation between economic status and XI th standard academic achievement	82
XVII	Partial correlation between sports performance and academic achievement with economic status controlled	84
XVIII	Partial correlation between economic status and academic achievement with sports performance controlled	86
