

LIST OF ILLUSTRATION

Fig. No	Title	Page No
4.1	Diagram showing the mean values on speed of experimental and control groups	111
4.2	Diagram showing the mean values on muscular strength of experimental and control groups	114
4.3	Diagram showing the mean values on flexibility of experimental and control groups	117
4.4	Diagram showing the mean values on explosive power of experimental and control groups	120
4.5	Diagram showing the mean values on triglycerides of experimental and control groups	123
4.6	Diagram showing the mean values on high density lipoprotein cholesterol of experimental and control groups	126
4.7	Diagram showing the mean values on low density lipoprotein cholesterol of experimental and control groups	130
4.8	Diagram showing the mean values on hemoglobin of experimental and control groups	133
4.9	Diagram showing the mean values on under arm pass of experimental and control groups	136
4.10	Diagram showing the mean values on over hand pass of experimental and control groups	139
4.11	Diagram showing the mean values on serving ability of experimental and control groups	142
