

LIST OF TABLES

<i>Table</i>	Title	<i>Page</i>
I	Tests Selection	81
II	Intra Class Correlation of selected Dependent variables	83
III	Plyometric Training Programme design High Intensity Plyometric Training	87
IV	High Intensity Plyometric Training Programme	88
V	Anaerobic Training (Resistance Training) Programme	90
VI	Cross Training Programme	92
VII	The Summary of mean and dependent ‘t’ test for the pre and post tests on Agility of experimental groups and control group	106
VIII	Values of Analysis of Covariance for experimental groups and control group on Agility	107
IX	The Scheffe’s test for the differences between the adjusted post tests paired means on Agility	108
X	The Summary of mean and dependent ‘t’ test for the pre and post tests on Speed of experimental groups and control group	111
XI	Values of Analysis of Covariance for experimental groups and control group on Speed	112
XII	The Scheffe’s test for the differences between the adjusted post tests paired means on Speed	113
XIII	The Summary of mean and dependent ‘t’ test for the pre and post tests on Explosive power of experimental groups and control group	116

<i>Table</i>	Title	<i>Page</i>
XIV	Values of Analysis of Covariance for experimental groups and control group on Explosive power	117
XV	The Scheffe's test for the differences between the adjusted post tests paired means on Explosive power	118
XVI	The Summary of mean and dependent 't' test for the pre and post tests on Flexibility of experimental groups and control group	121
XVII	Values of Analysis of Covariance for experimental groups and control group on Flexibility	122
XVIII	The Scheffe's test for the differences between the adjusted post tests paired means on Flexibility	123
XIX	The Summary of mean and dependent 't' test for the pre and post tests on Co-ordination of experimental groups and control group	126
XX	Values of Analysis of Covariance for experimental groups and control group on Co-ordination	127
XXI	The Scheffe's test for the differences between the adjusted post tests paired means on Co-ordination	128
XXII	The Summary of mean and dependent 't' test for the pre and post tests on Resting pulse rate of experimental groups and control group	131
XXIII	Values of Analysis of Covariance for experimental groups and control group on Resting pulse rate	132

<i>Table</i>	Title	Page
XXIV	The Scheffe's test for the differences between the adjusted post tests paired means on Resting pulse rate	133
XXV	The Summary of mean and dependent 't' test for the pre and post tests on Respiratory rate of experimental groups and control group	136
XXVI	Values of Analysis of Covariance for experimental groups and control group on Respiratory rate	137
XXVII	The Scheffe's test for the differences between the adjusted post tests paired means on Respiratory rate	138
XXVIII	The Summary of mean and dependent 't' test for the pre and post tests on VO ₂ max of experimental groups and control group	141
XXIX	Values of Analysis of Covariance for experimental groups and control group on VO ₂ max	142
XXX	The Scheffe's test for the differences between the adjusted post tests paired means on VO ₂ max	143
XXXI	The Summary of mean and dependent 't' test for the pre and post tests on Breath holding time of experimental groups and control group	146
XXXII	Values of Analysis of Covariance for experimental groups and control group on Breath holding time	147
XXXIII	The Scheffe's test for the differences between the adjusted post tests paired means on Breath holding time	148

<i>Table</i>	Title	Page
XXXIV	The Summary of mean and dependent 't' test for the pre and post tests on Anaerobic power of experimental groups and control group	151
XXXV	Values of Analysis of Covariance for experimental groups and control group on Anaerobic power	152
XXXVI	The Scheffe's test for the differences between the adjusted post tests paired means on Anaerobic power	153
XXXVII	The Summary of mean and dependent 't' test for the pre and post tests on Set of experimental groups and control group	156
XXXVIII	Values of Analysis of Covariance for experimental groups and control group on Set	157
XXXIX	The Scheffe's test for the differences between the adjusted post tests paired means on Set	158
XL	The Summary of mean and dependent 't' test for the pre and post tests on Attack of experimental groups and control group	161
XLI	Values of Analysis of Covariance for experimental groups and control group on Attack	162
XLII	The Scheffe's test for the differences between the adjusted post tests paired means on Attack	163

<i>Table</i>	Title	<i>Page</i>
XLIII	The Summary of mean and dependent 't' test for the pre and post tests on Block of experimental groups and control group	166
XLIV	Values of Analysis of Covariance for experimental groups and control group on Block	167
XLV	The Scheffe's test for the differences between the adjusted post tests paired means on Block	168
XLVI	The Summary of mean and dependent 't' test for the pre and post tests on Pass of experimental groups and control group	171
XLVII	Values of Analysis of Covariance for experimental groups and control group on Pass	172
XLVIII	The Scheffe's test for the differences between the adjusted post tests paired means on Pass	173
XLIX	The Summary of mean and dependent 't' test for the pre and post tests on Serve of experimental groups and control group	176
L	Values of Analysis of Covariance for experimental groups and control group on Serve	177
LI	The Scheffe's test for the differences between the adjusted post tests paired means on Serve	178
