

LIST OF TABLES

Table No.	Details of Tables	Page No.
3.1	Intra class correlation coefficient of test- retest scores of Mental Abilities and Psychomotor Abilities of the school boys.	54
3.2	3.2.1 Aquatic Training Programme - Weeks I, II,III, 3.2.2 Aquatic Training Programme - Weeks IV,V,VI 3.2.3 Aquatic Training Programme - Weeks VII,VIII,IX 3.2.4 Aquatic Training Programme - Weeks X,XI,XII	61 62 63 64
3.3.	3.3.1 Gymnastics Training Programme - Weeks I , II ,III,IV 3.3.2 Gymnastics Training programme - Weeks V,VI,VII,VIII 3.3.3 Gymnastics Training programme - Weeks IX,X,XI,XII	68 69 70
4.1	Results of Aquatic Training Group (ATG) at baseline and post-training period on Mental Abilities and Psychomotor Abilities of the school boys are presented as the mean (\pm SD)	77
4.2	Results of Gymnastics Training Group (GTG) at baseline and post-training period on Mental Abilities and Psychomotor Abilities of the school boys are presented as the mean (\pm SD)	79
4.3	Results of Control Group (CG) at baseline and post-training period on Mental Abilities and Psychomotor Abilities of the school boys are presented as the mean (\pm SD)	81
4.4	Analysis of variance on pre-test means among the Aquatic Training Group (ATG), Gymnastics Training Group (GTG) and Control Group (CG) on mental abilities and psychomotor abilities of the school boys	89

4.5	Analysis of variance on post-test means among the Aquatic Training Group (ATG), Gymnastics Training Group (GTG) and Control Group (CG) on mental abilities and psychomotor abilities of the school boys	91
4.6	Analysis of Covariance on adjusted post-test means among the Aquatic Training Group (ATG), Gymnastics Training Group (GTG) and Control Group (CG) on mental abilities and psychomotor abilities of the school boys	93
4.7	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Mental Speed	95
4.8	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Sustained Attention – Time	97
4.9	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Sustained Attention – Error	99
4.10	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Divided Attention	101
4.11	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Verbal Learning	103
4.12	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Verbal Memory	105
4.13	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Visual Learning	107

4.14	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Visual Memory	109
4.15	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Speed	111
4.16	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Co-ordination	113
4.17	Scheffe's post hoc analysis of the adjusted post-test means of ATG, GTG and CG on Explosive Power	115
