

Table	LIST OF TABLES	Page No
3.1	Test Selection	54
3.2	Intra Class Co-Efficient of Correlation on Selected Dependent Variables	55
3.3	Training Schedule for Experimental Group I (Game Specific Functional Training) For I To III Weeks	56
3.4	Training Schedule for Experimental Group I (Game Specific Functional Training) For Iv To VI Weeks	57
3.5	Training Schedule for Experimental Group I (Game Specific Functional Training) For VII To IX Weeks	57
3.6	Training Schedule for Experimental Group I (Game Specific Functional Training) For X To XII Weeks	58
3.7	Training Schedule for Experimental Group II (Game Specific Situational Training) for I to III Weeks	58
3.8	Training Schedule for Experimental Group II (Game Specific Situational Training) for IV to VI Weeks	59
3.9	Training Schedule for Experimental Group II (Game Specific Situational Training) for VII to IX weeks	59
3.10	Training Schedule for Experimental Group II (Game Specific Situational Training) for X to XII Weeks	60
3.11	Training Schedule for Experimental Group III (Combined Training) for I to III Weeks	60
3.12	Training Schedule for experimental Group III (Combined Training) for IV to VI weeks	61
3.13	Training Schedule for Experimental Group III (Combined Training) for VII to IX weeks	61
3.14	Training Schedule for Experimental Group III (Combined Training) For X To XII Weeks	62

3.15	Scoring key table for aggression	67
3.16	Criteria for subjective rating of volleyball playing ability	74
4.1	Computation Of Analysis Of Covariance Of Game Specific Functional Training, Game Specific Situational Training Combined Training And Control Groups On Vital Capacity	80
4.2	The Scheffe's Test for the Differences Between the Adjusted Post Test Means on Vital Capacity	81
4.3	Computation of analysis of Covariance of Game specific Functional Training Game Specific Situational Training combined Training and Control Groups on Anaerobic Power	83
4.4	The Scheffe's Test for the Differences Between the Adjusted Post Test Means on Anaerobic Power	85
4.5	Computation of Analysis of Covariance Of game Specific Functional Training Game Specific Situational Training Combined Training And Control Groups On Body Fat Percentage	87
4.6	The Scheffe's Test for the Differences Between the Adjusted Post Test Means on Body Fat Percentage	89
4.7	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training And Control Groups On Systolic Blood Pressure	91
4.8	The Scheffe's Test For the Differences Between the Adjusted Post Test Means on Systolic Blood Pressure	93
4.9	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Self Confidence	95
4.10	The Scheffe's Test For the Differences Between the Adjusted Post Test Means on Self Confidence	96
4.11	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Aggression	98
4.12	The Scheffe's Test For the Differences Between The Adjusted Post Test Means on Aggression	99

4.13	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Anxiety	101
4.14	The Scheffe's Test For the Differences Between the Adjusted Post Test Means on Anxiety	102
4.15	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Sports Achievement Motivation	104
4.16	The Scheffe's Test for The Differences Between the Adjusted Post Test Means on Sports Achievement Motivation	105
4.17	Computation Of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Service	107
4.18	The Scheffe's Test for the Differences Between the Adjusted Post Test Means on Service	109
4.19	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Dig Pass	111
4.20	The Scheffe's Test For the Differences Between the Adjusted Post Test Means on Dig Pass	112
4.21	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Over Head Pas	114
4.22	The Scheffe's test For the Differences Between the Adjusted Post Test Means on Over Head Pass	115
4.23	Computation of Analysis of Covariance of Game Specific Functional Training Game Specific Situational Training Combined Training and Control Groups on Spiking	117
4.24	The Scheffe's Test For the Differences Between the Adjusted Post Test Means on Spiking	118

4.25	Computation of Analysis of Covariance of Game Specific Functional Training, Game Specific Situational Training Combined Training and Control Groups on Overall Playing Ability	120
4.26	The Scheffe's Test for the Differences Between the Adjusted Post Test Means on Over All Playing Ability	121
