FIGURE	TITLE	PAGE
I	The pre test, post test and the adjusted post-test mean values of pranayama practices, auditory stimulation practices and control groups on intermodal perception	99
II	The mean values at the end of 10 th Month, 11 th month and 12 th month for pranayama practices, auditory stimulation practices and control groups on intermodal perception	109
III	The pre test, post test and the adjusted post-test mean values of pranayama practices, auditory stimulation practices and control groups on auditory perception	11
IV	The mean values at the end of 4 th Month, 5 th month and 6 th month for pranayama practices, auditory stimulation practices and control groups on auditory perception	122
V	The pre test, post test and the adjusted post-test mean values of pranayama practices, auditory stimulation practices and control groups on visual recognition memory	126
VI	The mean values at the end of 4 th Month, 5 th month and 6 th month for pranayama practices, auditory stimulation practices and control groups on visual recognition memory	135
VII	The pre test, post test and the adjusted post-test mean values of pranayama practices, auditory stimulation practices and control groups on tactile perception	139
VIII	The mean values at the end of 4 th Month, 5 th month and 6 th month for pranayama practices, auditory stimulation practices and control groups on tactile perception	148
