

## LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
3.1	Criterion measures	71
3.2	Reliability co-efficient of correlation on selected dependent variables scores	74
3.3	Asana Training Schedule	87
3.4	Pranayama training Schedule	88
3.5	Pilates Training Schedule	89
4.1	Computation of 't' ratio on Respiratory Rate of Experimental and control groups	96
4.2	Analysis of covariance on pre, post and adjusted post test means on Respiratory Rate of experimental and control groups	98
4.3	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Respiratory Rate	100
4.4	Computation of 't' ratio on Resting Pulse Rate of Experimental and control groups	103
4.5	Analysis of covariance on pre, post and adjusted post test means on Resting Pulse Rate of experimental and control groups	105
4.6	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Resting Pulse Rate	107
4.7	Computation of 't' ratio on Vo2 Max of Experimental and control groups	110
4.8	Analysis of covariance on pre, post and adjusted post test means on Vo2 Max of experimental and control groups	112
4.9	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Vo2 Max	114
4.10	Computation of 't' ratio on Vital Capacity of Experimental and control groups	117

<b>TABLE NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
4.11	Analysis of covariance on pre, post and adjusted post test means on Vital Capacity of experimental and control groups	119
4.12	Scheffe's post hoc test for the difference between the paired adjusted post-test means of Vital Capacity	121
4.13	Computation of 't' ratio on Stress of Experimental and control groups	124
4.14	Analysis of covariance on pre, post and adjusted post test means on Stress of experimental and control groups	126
4.15	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Stress	128
4.16	Computation of 't' ratio on Anxiety of Experimental and control groups	131
4.17	Analysis of covariance on pre, post and adjusted post test means on Anxiety of experimental and control groups	133
4.18	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Anxiety	135
4.19	Computation of 't' ratio on Aggression of Experimental and control groups	138
4.20	Analysis of covariance on pre, post and adjusted post test means on Aggression of experimental and control groups	140
4.21	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Aggression	142
4.22	Computation of 't' ratio on Low Density lipoprotein of Experimental and control groups	145
4.23	Analysis of covariance on pre, post and adjusted post test means on Low Density lipoprotein of experimental and control groups	147
4.24	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Low Density lipoprotein	149
4.25	Computation of 't' ratio on High Density lipoprotein of Experimental and control groups	152

<b>TABLE NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
4.26	Analysis of covariance on pre, post and adjusted post test means on High Density lipoprotein of experimental and control groups	154
4.27	Scheffe's post hoc test for the difference between the paired adjusted post-test means of High Density lipoprotein	156
4.28	Computation of 't' ratio on Very Low Density lipoprotein of Experimental and control groups	159
4.29	Analysis of covariance on pre, post and adjusted post test means on Very Low Density lipoprotein of experimental and control groups	161
4.30	Scheffe's post hoc test for the differences between the paired adjusted post-test means of Very Low Density lipoprotein	163
