BIBLIOGRAPHY

BOOKS

- Ann Carpenter, (1984). **Shape Up and Feel Great: The Seven Programme Guide to Working Out** , Great Britain.
- Berk, L.S., (1986). Lymphocyte Subset Changes During Acute Maximal Exercise, **Medicine and Science in Sports and Exercise**, 18: 706-710
- Bucher, Charles A. (1978). **Administration of School Health and physical Education programme**, The C.V. Mosby Company, 2nd Ed., St, Louis.
- Clarena, B. (1969). Factors Associated with Success in Volleyball, **Completed Research**, 11: 106.
- David Levinson and Karen Christenson (1996), **Encyclopedia of world sport from ancient times to the present** , Editors. Copy right © 1996, P.6-8.
- Donatelle, Rebecca, J. (2005). **Health: The Basis**, Pearson Education, Inc., Francisco.
- Edward, L. Fox and Mathews, Denold K. (1981). **The Physiological Basis of Physical Education and Athletics**, Saunders College Publishing, Philadelphia.
- Grana, W.A. and Kalenak, A. (1991). **Clinical Sports Medicine**. W.B. Saunders Co., Philadelphia, U.S.A.
- Gyton, A.C. (1991). **Text Book of Medical Physiology** (8th ed), W.B. Saunders company, Philadelphia, U.S.A.
- Hardyal Singh, (1991) **Science of Sports Training**, DVS Publication, New Delhi.
- Jerry R. Thomas and Jack K Nelson, (1990). **Research Methods in Physical Activity, Human Kinetics**, Publishers Inc., Illinois.
- Lawrence Gray Kumar. V. and Mamta Manjari Panda, (2002). **Modern Principles of Athletic Training**, Friends Publications, Madras.

- Martin H. Anderson, et. al., (1976) **Play with the Purpose**, Harper and Row Publishers, New York.
- McArdle, W.D., Katch, F.I. and Katch, V.L. (1991). **Exercise Physiology, Energy, Nutrition and Human Performance**, Lea and Febiger, Philadelphia, USA.
- McArdle, W.D., Katch, F.I., Katch, V.C. (1986). **Exercise Physiology**, 22nd ed; Lea and Febiger, Philadelphia.
- Murugesh, N (1993). **Anatomy, Physiology and Health Education** (3rd ed; 1993)
- Pollock, M.L. and Wilmore, J.H. (1990). **Exercise in Health and Disease: Evaluation and Prescription for Presentation and Rehabilitation**. W.B.Saunders Co., Philadelphia, U.S.A
- Tortora. G. and Anagostakos, N. (1984). **Principles of Anatomy and Physiology** (4th ed), Biological Sciences Text Books Inc, U.S.A.
- Uppal, A.K., et al., (2000). **Physical Education and Health**, Friends Publications, Delhi.
- Wayne and Payne, (1986). **Understanding your Health**, Times/Mirror Mosby College Publishing, Missouri.
- Wilmore, J.H., et. al. (1982). **Medical Science and Sports** 10 (2): 75-8.
- Wilmore, J.H., et.al. (1978). Physiological Alterations Consequent to Circuit Weight Training. **Medicine and Science in Sports**, 10 (2): 79-84.
- Yobu, A. (1988). **Test Measurement and Evaluation**, Rajmohan Pathipakam, Chennai, India.

JOURNALS

- Ahlborg, G. and Felig, P. (1982). Lactate and Glucose Exchange Across the Forearm, Legs and Splanchnic Bed During and After Prolonged Leg Exercise, **Journal of Clinical Investigation**, 69: 45-54
- Barnard R J. Jung T. Inkeles SB. (1994) "Diet and exercise in the treatment of NIDDM", **Completed Research**, p.469
- Benoni, G, et.al. (1995a). Changes in Several Neutrophil Functions in Basketball Players Before, During and After The Sports Season, **International Journal of Sports Medicine**, 16(1):34-37
- Benoni, G, et.al. (1995b). Effect of Acute Exercise on Some Haematological Parameters and Neutrophil Functions in Active and Inactive Subjects, **European Journal of Applied Physiology and Occupational Physiology**, 70(2):187-91
- Bishop, N.C, Walsh, N.P, Haines, D.L, Richards, E.E, and Gleeson, M. (2001). Pre-exercise Carbohydrate Status and Immune Responses to Prolonged Cycling: I. Effect On Neutrophil Degranulation, **International Journal of Sport Nutrition and Exercise Metabolism**, 11 (4):490-502
- Boyadjiev, N. and Taralov, Z. (2000). Red Blood Cell Variables in Highly Trained Pubescent Athletes: A Comparative Analysis. **British Journal of Sports Medicine**, 34(3): 200-4.
- Branch, J.D et.al. (1999). Exercise Training and Intensity Does Not Alter Vascular Volume Responses in Women, Aviation, **Space and Environmental Medicine**, 70(11):1070-6.
- Ciloglu F, (2005), "Exercise intensity and its effects on thyroid hormones.", **Neuro Endocrinol Lett**. Dec;26(6):PP.830-4.
- Denadai et al. (2006) (2005), "Interval training at 95% and 100% of the velocity at VO₂ max: effects on aerobic physiological indexes and running performance." **Appl. Physiol. Nutr. Metab.** Dec;31(6):737.

- Domej, W, et.al. (2002). Prolonged Endurance Challenge at Moderate Altitude: Effect on Serum Eosinophil Cationic Protein, Eosinophil Dynamics, and Lung Function, **Chest**, 121 (4):1111-6.
- Douglas, P.D. (1989). Effect of a Season of Competition and Training on Hematological Status of Women Field Hockey and Soccer Players, **Journal of Sports Medicine and Physical Fitness**, 29(2):179-83
- Dunstan DW, et.al. (1998) "Effects of a short-term circuit weight training program on glycaemic control in NIDDM",. **Diabetes Res Clin Pract**, April;40(1):53-61.
- El-Sayed, M.S. and Rattu, A.J. (1996). Changes in Lipid Profile Variables for Response to Submaximal and Maximal Exercise in Trained Cyclists, **European Journal of Applied Physiology and Occupational Physiology**. 73: 88-92
